

Pain – From Head to Toe

11th International Continued Training Event

Lido di Venezia, Italy
October 24–27, 2019

Scientific Management:
Univ. Prof. Dr. Wilfried Ilias, MSc

Introduction

Dear Congress Participants,

as every year, we tried to do our best to present a variety of lectures reflecting the most recent developments in pain diagnostics and therapies. Also, last but not least, we will discuss in detail the current necessary implementations of legal requirements such as patients' autonomy and Do Not Resuscitate (DNR) orders.

As before, we have been able to rely on our proven collective of expert lecturers, who have been accompanying this event for more than a decade. Not out of tradition, but to avoid collisions with other national and international meetings, we chose the last weekend in October for this event, hoping for nice weather and absence of "aqua alta".

Expecting to welcome you to this postgraduate education, I remain with best regards

Univ. Prof. Wilfried Ilias, MD, MSc

Chairs and Speakers

Univ. Prof. Dr. Günther BERNATZKY	Medical University Salzburg (Austria)
Univ. Prof. Mag. Dr. Eckhard BEUBLER	Medical University Graz (Austria)
Univ. Prof. Dr. Martin FRIEDRICH	Practitioner, Perchtoldsdorf (Austria)
Dr. Kurt GOLD-SZKLARSKI	Practitioner, Vienna (Austria)
